SPECIALTY CIDERS

ABOUT EDEN

Eden's mission is to support the agricultural working landscape of Vermont, both in our holistic estate orchards as well as through our Vermont orchard partners. Cider specific apples are pressed once a year at harvest and aged before bottling. Our ciders are unique and innovative, respecting the rare tannic and heirloom apples we use, and requiring minimal intervention.

Sandwich Buddy is the perfect cider for a casual picnic--a blend of apples valued for cider as well as a variety of culinary pursuits, this blend is greater than the sum of its parts. Each apple contributes to a finished product with just enough tannin, acidity, and alcohol to make for a pleasing to consume, easy to enjoy beverage. Whether this bottle fulfills its sandwich pairing destiny is irrelevant. Enjoy it on its own or top a sparkling cocktail, this easy drinking cider is a sure crowd pleaser!
